For all your spare parts contact:

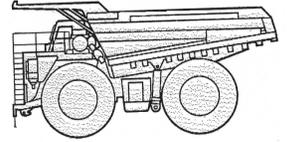

OVERSEAS PURCHASING SERVICES LIMITED

We gladly accept American Express, Discover, Visa and MasterCard

was established in 1988 serving the construction and mining industries with direct emphasis on off highway haul truck and underground LHD's

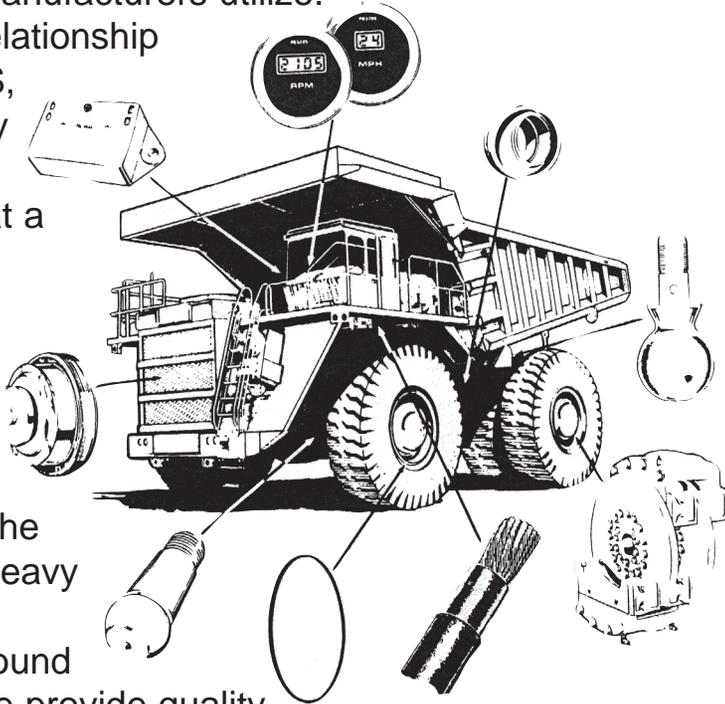

As an Original Equipment Manufacture Supplier (OEM), OPS, Ltd buys direct from many of the same sources the equipment manufacturers utilize.

This direct relationship enables OPS, Ltd. to supply the exact same parts at a substantial savings.

OPS, Ltd. is a diversified supplier focusing on the mining and heavy construction industries around the world. We provide quality parts and components to keep your heavy equipment up and running.

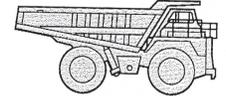

OPS, Ltd's large computerized OEM interchange consists of hard-to-find obsolete and current part numbers for your off highway haul trucks and LHD machines.

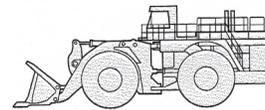

OPS, Ltd. supplies a vast array of new parts and components for haul trucks and LHD machines, from hard-to-find that are old and obsolete to the latest in new parts design. As you can see from our comprehensive list, we provide components and spares covering every section of your equipment.
